

**BE SENATE SMART! VOTE 1 MICHAEL ECKFORD**

climate change :: water :: education :: health :: farming :: social justice :: republic :: international relations

**“I am standing as an Independent Senate Candidate in NSW because I believe Australia needs to find a New Way and free itself from being the last outpost of British colonialism. It’s overdue for a strong Black voice to come forward and stand up for Social Justice and Human Rights ...**  
**... and we should not forget that Aboriginal People looked after this country, the native animals and plants for well over 60,000 years. This is sustainability.”**

**CLIMATE CHANGE**

Strongly support a just transition away from coal into alternative clean energy initiatives like solar, wind and wave technologies. Strongly oppose false solutions like nuclear power and carbon capture technologies.

**WATER MANAGEMENT**

Management for domestic, environmental and cultural requirements to be at the forefront of all water allocation decisions. Find meaningful and sustainable solutions for water management to sustain economic development across the various business sectors, while addressing human, environmental and cultural.

**FREE EDUCATION**

Free education for all. We have an obligation to see that our children and grandchildren enjoy the same educational benefits, opportunities and privileges as past generations.

**HEALTH**

Guaranteed access to appropriate health care, especially for mental health sufferers and those suffering chronic and potentially terminal illness. 100% tax-deductible-rebate to those who have the capacity to pay all medical fees up-front, freeing up the cash needed by the more marginalised citizens for quality treatment.

**FARMING & FREE TRADE**

Initiate a complete review of the Free Trade Agreements, which are threatening the economic sustainability of primary production by allowing inferior produce to compete with high quality Australian grown non-GM food. Demand that the parliament include all stakeholders in this review so

**BE SENATE SMART! VOTE 1 MICHAEL ECKFORD** (aka ANDERSON)

that smaller farms survive the onslaught of transnational corporations.

**SOCIAL JUSTICE & HUMAN RIGHTS**  
Improvement of anti-discrimination laws and amendment of racial vilification laws to do with racial incitement. Push for culturally appropriate economic development for Aboriginal People whilst recognising their right to control their intellectual and cultural property according to their laws and to control any earnings derived from it.

**REPUBLIC OBJECTIVE**  
Australia to become a Republic and for the Parliament of England to repatriate the Australian constitution establishing the Independent Republic of Australia. To convene Regional, State and National summits to discuss the drafting of a new

constitution for presentation to the British Crown and Parliament of England.

**INTERNATIONAL RELATIONS**  
A review of all International Conventions that have been incompletely incorporated into our domestic laws. To call upon our parliament to incorporate into Australian domestic law ILO (International Labour Organisation) convention 107 and 169 that focus on Aboriginal Rights and Freedoms.
